GENERAL COMMENTS ON STATE'S FUNDS

This is the twenty-eighth annual financial report prepared by the Division of Accounts and Reports. Statements presented in Volume I have been prepared to show all funds deposited and disbursed from the State Treasury for the fiscal year on a summary fund class basis along with comparative data of the preceding fiscal year. These statements also include the activity of the Department of Transportation, Kansas Public Employees Retirement System and the Department of Health and Environment investments which are maintained outside the central accounting system. Financial statements presented in the forthcoming volume II will be prepared for each individual fund and reported within that fund's particular fund class group.

Financial information included in this report is based on records of the Division of Accounts and Reports, which are maintained in accordance with generally accepted governmental statutes that require the "ear-marking" of resources into separate financial entities called funds which have a specific function or objective as provided by law. There are certain funds which are not included in this report due to their exemption by law from operating through the State Treasury. Funds that are exempt include local custodial funds collected in a trust capacity; locally-held revolving funds; student union, athletic corporation and cafeteria fees of the state universities; and transactions of the Kansas Turnpike Authority.

The financial accounts of the State of Kansas are maintained through the use of ten classes of funds as follows: 1. General Fund; 2. Federal Revenue Sharing Fund; 3. Special Revenue Funds; 4. Highway Funds; 5. Enterprise Funds; 6. Intragovernmental Service Funds; 7. Trust and Agency Funds (Employment Security Funds and Retirement Funds are included in this class and shown separately); 8. Capital Projects Funds (Kansas Educational Building Fund, State Institutions Building Fund and Correctional Institutions Building Fund are included in this class and shown separately); 9. Clearing, Refund and Suspense Funds; and 10. Payroll Clearing Fund. Information pertaining to each class of funds for the fiscal year ending June 30 will be found in Sections II through XI of this report. The primary financial statements that are found in each of these fund class sections include the balance sheet, resources available for appropriations (on appropriated funds only), analysis of change in unencumbered cash balance and a combined statement of revenue and expenditures.

Receipts are recorded when the cash is received by the State Treasurer. Receivables due state agencies are not included in this report, but will be credited to the proper fund when received by the State Treasurer in the form of cash.

Expenditures used in this report are based on the actual amount of warrants issued and interfund transactions processed during the fiscal year. This differs from the expenditures as used in budget documents which include both actual cash expenditures and the amount of funds reserved for the payment of contracts, orders and other obligations. Monies reserved for the payment of contracts, orders and other obligations are not shown as expenditures on the records of the Division of Accounts and Reports until warrants are issued or interfund transactions processed for their liquidation.

Balance sheets presented in the various sections of this report include as assets unexpended cash in the State Treasury (including the Unemployment Trust Fund deposited in the U. S. Treasury), agency funds invested in securities, cash with banks for the purchase of investments, State's share of ad valorem taxes due from County Treasurers, agencies' imprest funds and amounts to be provided for bond redemption. Land, buildings, capital improvements, equipment and supplies owned by the State and its agencies are not included in the balance sheet. These items are expensed at the time of purchase or construction.

Additional details on individual funds and other fiscal year information will be included in a supplemental volume to be published at a later date. A directory of statements contained in the supplemental volume is included in Section XIII of this volume.

Revenue bond indebtedness of the state agencies responsible for the administration of such debt is given in Section XII. Commentary, a schedule and a graph pertaining to the revenue bond indebtedness is also presented on pages xxii, xxiii, and xxiv. Also contained in this section are comments, special statements, charts and graphs pertaining to the several different classes of funds included in this report.

GENERAL FUND

The General Fund is maintained to finance all authorized governmental activities not provided by special funds. Revenues not dedicated for special funds are deposited into the General Fund. Disbursements from the General Fund are authorized by legislative appropriation acts.

Information on the General Fund transactions are presented below and on the following pages through the use of charts, graphs, statements and comments. Additional details on the revenues, expenditures, appropriations and balances of the General Fund are presented in Section II of this report.

A comparison of the unencumbered cash balance of the General Fund at June 30, 1981, and June 30, 1980, is presented in the statement below. A graph showing revenues, expenditures and available balances at the close of fiscal years 1972 through 1981 is presented on page ix of this report.

GENERAL FUND REVENUES

The General Fund revenue collections for the 1981 fiscal year were $1.23 billion as compared to $1.1 billion for the 1980 fiscal year. This amounted to an increase of $128.7 million, or 11.7 percent. An analysis of the sources of revenue discloses that $1.15 billion, or 94 percent of the total 1981 fiscal year revenue was derived from tax sources. The non-tax sources of revenue amounted to $76.9 million, or 6 percent of the total revenues. Page vii of this report presents pie charts showing percentages of total revenues collected and total tax revenues collected.

The General Fund statement presented below indicates that the major increases in revenue collections are in the categories of Income and Inheritance Taxes ($81.2 million), Sales and Compensating Taxes ($30.8 million) and minor increases in the remaining categories of tax revenues of $7.1 million. The non-tax revenues show an overall increase of $9.5 million which is reflected primarily in the categories of Revenue from the Use of Money and Property and Other Non-Tax Revenues.

A detailed comparative statement of operating and non-operating revenue of the General Fund is provided in Section II of this report on pages 23 through 25.

KANSAS EDUCATIONAL BUILDING FUND

The Kansas Educational Building Fund was created by law and receives a portion of the proceeds of all property subject to ad valorem taxation. The present tax levy of one mill provides funds for erecting, equipping and repairing buildings at the educational institutions under the control of the Board of Regents. Expenditures from this fund are made on the basis of appropriations by the Legislature.

Revenues credited to the fund for fiscal year 1981 consisted primarily of tax moneys. Total revenues received into the fund for the 1981 fiscal year were 10.4 million as compared to $9.7 million credited for the 1980 fiscal year. Expenditures from the fund in the 1981 fiscal year were $11.7 million as compared to $10.3 million for the 1980 fiscal year. An analysis of the fund at June 30, 1981, shows resources of 5.9 million available to finance the succeeding fiscal year's appropriations.

Section IX entitled "Capital Projects Funds", presents detailed information on revenues, expenditures, and balances of the Kansas Educational Building Fund.

STATE INSTITUTIONS BUILDING FUND

The State Institutions Building Fund was created by law and receives a portion of the proceeds of the annual permanent state tax levied on all property subject to ad valorem taxation.

The present tax levy is five-tenths mill which provides funds for constructing, repairing and equipping buildings at the several charitable, benevolent and mental institutions of the State. Expenditures from this fund are based on appropriations by the Legislature.

The revenue credited to the fund from taxes amounted to $5.1 million for fiscal year 1981 as compared to $4.8 million for fiscal year 1980, an increase of $340 thousand.

Expenditures from the fund for fiscal year 1981 amounted to $6.0 million as compared to $2.8 million for the preceding fiscal year. An analysis of the balance sheet at June 30, 1981, shows resources of $3.9 million were available to finance the succeeding year's appropriations as compared to $3.4 million at June 30, 1980.

Section IX entitled "Capital Projects Funds", presents detailed information on revenues, expenditures, and balances of the State Institutions Building Fund.

CORRECTIONAL INSTITUTIONS BUILDING FUND

The Correctional Institutions Building Fund was created by the 1976 Session of the Legislature. It received a portion of the proceeds on the annual permanent state tax levied on all property subject to ad valorem taxation. The authorization for the tax levy of one-tenth mill expired on November 1, 1978.

The proceeds raised by the levy are available for the use and benefit of state correctional institutions. Authorization for expenditures from this fund is based on appropriations by the Legislature. The expenditures from the fund for fiscal year 1981 amounted to $789 thousand as compared to $475 thousand for the preceding fiscal year. An analysis of the balance sheet at June 30, 1981, shows resources of $140 thousand available to finance the succeeding year's appropriations.

Section IX entitled "Capital Projects Funds", presents detailed information on revenues, expenditures, and balances of the Correctional Institutions Building Fund.

TRANSPORTATION FUNDS

Transportation funds consist primarily of the State Highway Fund, Urban Mass Transit Fund, Federal Highway Safety Fund, Rural Highway Public Transportation Demonstration Fund, State Freeway Construction Fund, State Freeway Fund, Restricted Fee's Fund, County Equalization and Adjustment Fund and the City and County Highway Fund A comparative combined statement of revenue, expenditures and balances of these funds is presented on the following page.

Revenues deposited into the Transporation Funds are generally restricted by law for financing activities of the Department of Transportation in the construction, reconstruction and maintenance of the state system of highways and the distribution to counties and cities of shared revenue from motor fuel taxes for maintaining roads and streets.

The comparative combined statement on the following page shows the total revenues were $354.3 million for fiscal year 1981 as compared to $350.9 million for fiscal year 1980, an increase of $3.4 million. Operating revenues amounted to $363.2 million for fiscal year 1981 as compared to $354.7 million for the preceding fiscal year, an increase of $8.5 million.

The increase in operating revenues is primarily due to the category of Federal Grants for Highways and Bridges which increased $8.0 million over fiscal year 1980. Non-operating revenues for fiscal year 1981 amounted to a negative $8.9 million as compared to a negative $3.8 million for fiscal year 1980.

The decline in non-operating revenues is the net result of two primary factors: 1. the Department of Transportation issued highway revenue bonds with a face value of $40 million during fiscal year 1980 which concluded the issuance of bonds authorized by K.S.A. 68-2304 and 2. legislation enacted by the 1980 Legislature authorized the transfer of money from the State General Fund into the State Freeway Fund which represents interest earned by the State Pooled Money Invesiment Board on the average daily balance of the Highway Fund in the State Treasury. These transfers provided $9.3 million to the State Freeway Fund during the fiscal year.

The total expenditures from Transportation Funds were $411.6 million for fiscal year 1981 as compared to $364 million for fiscal year 1980, an increase of $47.3 million. Operating expenditures for fiscal year 1981 totaled $395.5 million as compared to $381.4 million last fiscal year, an increase of $14.2 million. The largest increase was in the category of Salaries and Wages, which shows a $8.1 million increase over last fiscal year. Non-operating Expenditures for fiscal year 1981 amounted to $16.0 million as compared to a negative $17.1 million last fiscal year, an increase of $33.1 million. The increase is primarily due to the category of Advances for Purchase of Investments and Other Non-operating Expenditures which experienced an increase of $37.2 million.

The total outstanding indebtedness at June 30, 1981, for highway revenue bonds issued is $247.13 million to be retired by fiscal year 2003. The proceeds of the bond sales as well as monies of the State Freeway Fund may be invested until cash is needed for payment of authorized obligations.

The unexpended cash balance at June 30, 1981, is $67.0 million. However, obligations consisting of orders and contracts for services, supplies, equipment and capital construction at June 30, 1981, amounted to $216.5 million. Although the amount of obligations exceeds the available unexpended cash balance, revenue is anticipated to be received in time to meet these obligations as they become due.

A graph depicting revenues, expenditures and unexpended balances of the Transportation funds from fiscal year 1972 through fiscal year 1981 is presented on page xiii of this section.

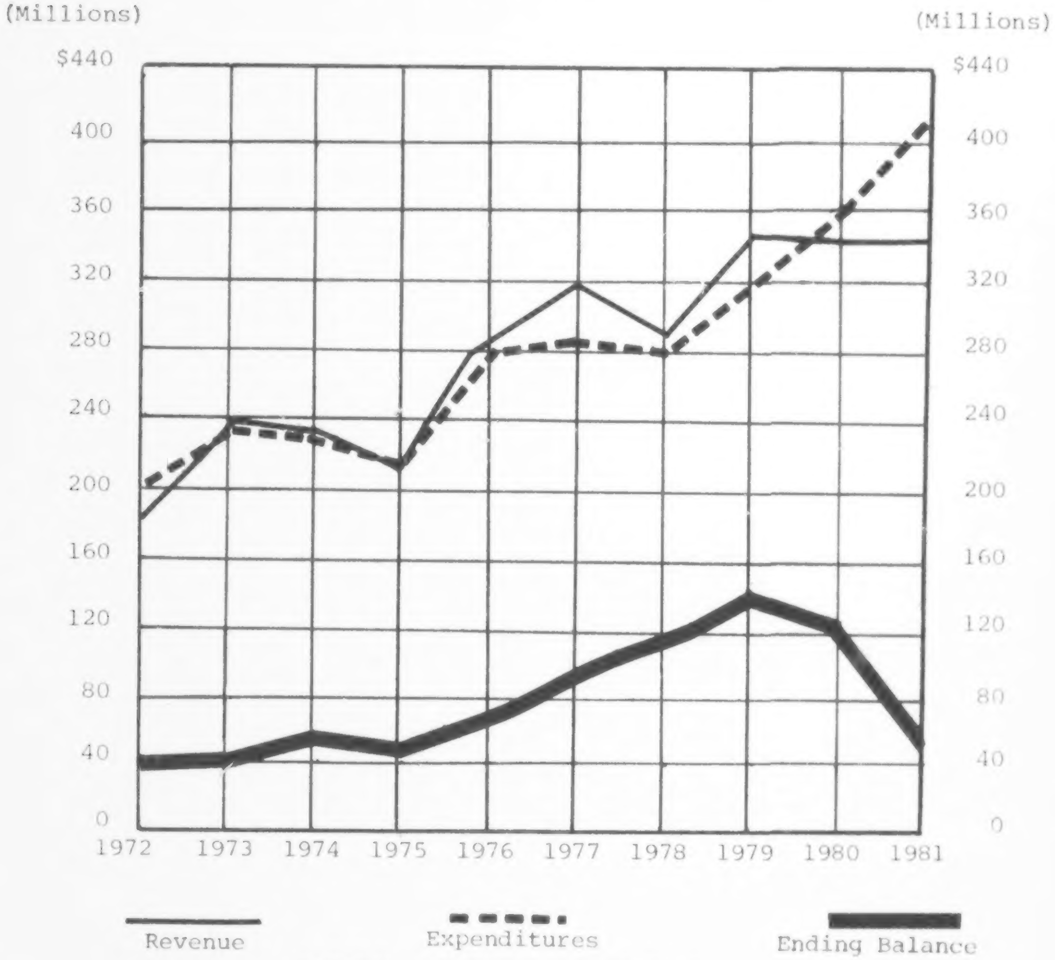
REVENUE, EXPENDITURES AND ENDING UNEXPENDED BALANCES
(FISCAL YEARS 1972 THROUGH 1981)



FEDERAL REVENUE SHARING FUND

Federal Revenue Sharing monies were authorized from the Federal Government under the State and Local Fiscal Assistance Act of 1972 (P.L. 92-512) and amended under (P.L. 94-488) of 1976, but expired as of September 30, 1980. Fiscal year 1982 revenue is expected to be only $2 million of interest income. The Legislature established this fund in the State Treasury and declared the monies placed into the fund be trust funds subject to appropriation the same as other funds of the state. The legislation provided further for the investment of these monies and directed that the interest income received also be credited to this trust fund. During the 1981 fiscal year, monies received under the Federal Act were $10.1 million as compared to $20.1 million for fiscal year 1980. Interest income from invested balances produced an additional $3.0 million in revenue. This revenue, plus the unencumbered balance at June 30, 1980, of $22.3 million, was used to finance fiscal year 1981 appropriations of $15.8 million. The unencumbered cash balance at June 30, 1981, available to finance the succeeding fiscal year appropriations is $21.5 million. Additional details of the Federal Revenue Sharing Fund may be found in Section III of this report entitled "Federal Revenue Sharing Fund".

EMPLOYMENT SECURITY FUND

The Employment Security Fund was established by law as a special fund, separate and apart from all public monies or funds of the State. The law provides that the fund consist of three separate accounts as follows: (1) a clearing account, (2) an unemployment trust fund and (3) a benefit account. Deposits into this fund consist of contributions, fines and penalties levied on employers for unemployment benefits, interest earned on trust funds deposited in the U.S. Treasury, federal grants for unemployment benefits to federal employees and ex-servicemen and federal grants for fifty-percent of the extended benefits to a maximum of thirteen weeks. Expenditures from the fund are paid to recipients for a period of twenty-six weeks with some extended benefits for an additional thirteen weeks.

Analysis of the Employment Security Fund transactions for fiscal year 1981 shows total revenue of $152.2 million as compared to $113.6 million last fiscal year. Expenditures this fiscal year totaled $168.4 million as compared to $91.2 million during fiscal year 1980. The most significant change in revenue for this fiscal year occurred in the category of Federal Grants which increased $31.5 million from the preceding fiscal year. The most significant change in the expenditures for this fiscal year occurred in the category of Regular Unemployment Benefits which increased $51.1 million over fiscal year 1980. Expenditures exceeded revenues this fiscal year by $16.3 million to decrease the fund balance to $225.3 million at June 30, 1981.

Presented below is a comparative statement of revenues, expenditures and ending fund balances for fiscal year 1981 and 1980. A graph illustrating the past ten years is presented on the following page. Additional detail is presented in Section VIII of this report entitled "Trust and Agency Funds."

COMBINED FUNDS OF THE STATE

Statements have been prepared on the following pages on the combined revenue and expenditure transactions for all funds deposited and disbursed through the State Treasury. The forthcoming statements show comparative statistics for both the 1981 and 1980 fiscal years and are prepared on the same basis for each fiscal year. Included in these statements are the financial transactions of 1,218 separate funds and 4,384 budgetary accounts for fiscal year 1981. It is important for the reader to remember that these statements are presented for statistical purposes only and the resources of one fund cannot be transferred to another fund unless authorized by statute.

The Comparative Statement of Operating Revenue has been prepared on a net basis by the subtraction of refunds from the gross receipts. The 1981 fiscal year shows an increase of $271.4 million over fiscal year 1980 in net operating revenues. The increase is reflected in all categories of revenue, except for Motor Fuel taxes and Other Revenue which decreased. The major increases are in the categories of Income and Inheritance Taxes, State Sales and Compensating Taxes, Revenue From the Use of Money and Property and Federal Grants.

The Comparative Statements of Operating Expenditures have been prepared on a net basis by subtracting amounts financed by non-operating sources of revenue from gross operating expenditures. The 1981 fiscal year shows an increase in net operating expenditures.of $304.9 million over the preceding fiscal year. This increase is reflected in all major expenditure categories except Retirement Benefits, Highway and Other Capital Improvements, and Debt Service Interest.

Charts entitled "Where the Money Comes From" and "Where the Money Goes" have been prepared and are presented in this section on pages xviii and xix.

Additional detailed statements and a balance sheet on the combined funds of the State are presented in Section I of this report.

FEDERAL GRANTS

The net amount of federal grants deposited in the State Treasury during the 1981 fiscal year totaled $652.7 million as compared to $595.2 million received during the preceding fiscal year, which is an increase of $57.5 million in federal grants for the State of Kansas. The increase is reflected in all categories of grants, except Federal Revenue Sharing, which decreased $10 million. Assistance and Relief and Other Federal Grants experienced the greatest increases. There was also a large increase in the amount of unexpended grant monies returned to the Federal government. This was primarily due to the $16.5 million reimbursement to the Federal Highway Administration pursuant to HB 2587 of the 1981 Legislature.Except for the Federal Revenue Sharing Act monies and some federal reimbursements which are placed in the State General Fund, federal grant monies are used for specific programs and cannot be used in support of general state government.

Presented below is a statement showing the general purpose of federal grants and the amounts received during both the 1981 and 1980 fiscal years.

STATE BONDED INDEBTEDNESS

The State of Kansas does not have any general obligation bonds outstanding. However, statutory authority has been granted to issue bonds for academic facilities, student unions and dormitories at state universities by the State Board of Regents; highway construction by the Department of Transportation; sewage facilities by the Department of Health and Environment; National Guard armories by the Adjutant General; and office buildings by the Department of Administration.

The total outstanding debt at June 30, 1981, was $330,886,000 as compared to $345,390,000 for fiscal year 1980. The decrease in bonded debt is due to debt principal payments of $14.4 million for this fiscal year.

Presented in the following schedule is the debt service requirements to maturity by fund class. Also, a graph reflecting the amount of debt payment requirements to be met for future year maturities is presented on the following page. Additional detail of the bond indebtedness is also presented in Section XII of this report.

Federal Revenue Sharing Fund

The Federal Revenue Sharing Fund was created during the 1973 Legislature by enactment of K. S. A. 1973 Supp. 75-4257 et seq. to receive payments made to the State of Kansas under Title I of the State and Local Fiscal Assistance Act of 1972 (Public Law 92-512; 31 U. S. C. A. 1221). Moneys in the fund, not immediately required for the purpose for which received, are invested in time deposit, open accounts or certificates of deposit in commercial banks or trust companies or in United States Treasury bills or notes. Expenditures of the proceeds of the fund are authorized by appropriations made by the Legislature.

This group or class includes a number of funds representing many separate activities of the state government created by law for specific purposes, usually on a self-supporting basis. Earmarked funds are received from taxes, agency earnings, revenues from the use of money and property, federal grants and other miscellaneous sources. The expenditures are controlled by appropriations, special grants of authority contained in standing laws, or federal laws where federal grants are involved.

Payroll Clearing Fund

The law provides that a payroll account be established in the state treasury to permit the issuance of a consolidated payroll for each state agency. The receipts to this account are derived from transfers of monies from other funds within the treasury. The disbursements are made by payroll warrants for the net amount of salaries to state employees and the remainder of funds in the form of F. I. C. A., withholding taxes and retirement deductions are disbursed to other governmental units. Normally monies transferred in are disbursed within the same month and not later than the end of a quarter.
